

# FIRST MINING GOLD

<b>Job Category:</b>	<b>Project Geologist</b>
<b>Employment Type:</b>	Employee (Contract 6 months)
<b>Location:</b>	Northwestern Ontario
<b>Application Deadline:</b>	May 1 <sup>st</sup> , 2022

First Mining Gold Corp. (First Mining) is guided by its values of safety, integrity, responsibility, and collaboration. We develop and operate our projects safely, reliably and with care for our impact on the environment. With our presence in Ontario, Newfoundland and Québec, our people play an active role in building strong communities.

We are proud of how our hard work and commitment to sustainability sets us apart and benefits society and communities where we operate, every day. We are looking for a new team member(s) who shares our values and is ready to take on exciting challenges.

## **The Opportunity**

We are seeking to hire a Project Geologist who will help support exploration and development study activities for First Mining and its various subsidiaries. Reporting to and working closely with the Geology Supervisor(s) and the Senior District Geologist, the role of Project Geologist will be integral in field data collection, data consolidation & interpretation directly related to geoscience advancement for the company and its projects.

## **What you will do**

As a Project Geologist, your primary duties and responsibilities will be as follows:

### *District Exploration Geoscience and Project Development Support*

- Drill core logging and drill rig monitoring including but not limited to;
  - Logging of lithologic, structural, alteration, mineralization and veining observations within project drill cores.
  - Plotting and monitoring of drill holes progress for alignment with objectives.
  - Sample selection and marking out of individual samples for analysis.
  - Coordination with geotechnicians and core cutters in fulfilling core processing.
  - Drill rig site visits to monitor progress, shutdown and inspect environment and safety compliance.
  - Ensuring all data collection is aligned to First Mining's geoscience data collection and QA/QC policies and procedures.
- Field mapping, geophysical ground truthing, prospecting and soil sampling.

- Field navigation and traversing.
- Data collection, rock grab sampling, channel sampling, rock observation descriptions and structural measurements.
- Historical data validation
- Use of mobile field data collection methodologies
- Safe field practices in remote areas and working around boats, ATV's and helicopters.
- Provide feedback and reporting on weekly and monthly basis
- Reviewing and updating data compilation and consolidation initiatives focused on increasing integrity, standardization, resolution and completeness using ArcGIS & Leapfrog.
- Provide exploration input, interpretations and recommendations in the advancement of district scale exploration
- Collaboration to advance innovation and technologies for the unlocking of modernized techniques in analysis and interpretation.

### **Preferred Qualifications and Education**

- A university degree in earth sciences or equivalent with an eligibility for registration with the Professional Geoscientists of Ontario (PGEO or GIT).
- Minimum 2-5+ years of exploration experience, including remote site exploration operations.
- Prior experience working on District Scale Archean Greenstone hosted gold projects is considered an asset.
- Experience and knowledge of core logging, GIS software and Leapfrog.
- Knowledge, understanding and experience of geological data modelling .
- Ability to work independently as well as collaboratively in a multi-disciplinary, cross-cultural team.
- Excellent oral and written English communication skills and a strong attention to detail.
- Work safely and contribute to safe practices of the First Mining Gold team.
- Willingness to travel (FIFO) and work within remote site settings as this position's rotation will be determined by core seasonal activities.

### **About First Mining Gold Corp.**

First Mining is a Canadian gold developer focused on the development and permitting of the Springpole Gold Project in northwestern Ontario. Springpole is one of the largest undeveloped gold projects in Canada. The results of a positive Pre-Feasibility Study for the Springpole Gold Project were announced by First Mining in January 2021, and the environmental assessment process for the project is on-going. The Company also holds a large equity position in Treasury Metals Inc. who are advancing the Goliath-Goldlund gold projects in Ontario towards construction. First Mining's portfolio of gold projects in eastern Canada also includes the Pickle Crow (being advanced in partnership with Auteco Minerals Ltd.), Cameron, Hope Brook, Duparquet, Duquesne and Pitt gold projects.

First Mining was created in 2015 by Mr. Keith Neumeyer, founding President and CEO of First Majestic Silver Corp.
